SUMMARY

Creative Director and Video Specialist with 20+ years of high-end broadcast experience (Disney, Boeing, NASA). Currently redefining production workflows through generative AI (Sora, Kling, Veo). I bridge the gap between experimental GenAI and client-ready visual polish, ensuring ethical, high-impact storytelling for global brands. Proven expertise in integrating AI visuals into professional VFX and post-production pipelines.

SKILLS & AI SPECIALTIES

GenAI Video: Advanced Text-to-Video/Image-to-Video (Sora, Kling, Veo, Luma), visual narrative design, professional prompt engineering

Post-Production: Premiere Pro, After Effects, DaVinci Resolve, VFX integration, sound design, visual finishing, high-end color grading

Leadership: Creative strategy, mentoring production teams, workflow innovation, client-facing GenAI advisory, ethical AI implementation

Emerging Tech: Stable Diffusion, ComfyUI workflows, custom API integration, large-scale AI creative scaling, curiosity-gap content strategy

EXPERIENCE

Independent Creative Producer / Editor (Consultant)

The Kerr Media Group | Apr 2014 to Present | Remote

- Pioneering AI-native production workflows using Sora and Kling for high-impact commercial narratives
- Defining creative standards for 'Impossible Content'—leveraging generative tools to deliver visuals previously unattainable on standard budgets
- Leading high-end post-production for clients like Disney, Boeing, and NASA, ensuring broadcast-quality results
- Developing ethical AI frameworks and secure data pipelines for professional creative agency environments

Associate Producer

Signal Group DC | Feb 2015 to Jan 2025 | Washington, DC

- Architected video content strategy for national-scale advocacy and corporate clients
- Integrated emerging technology into traditional production pipelines to increase speed-to-market by 40%
- Managed cross-functional teams of editors and designers to deliver high-compliance, polished visual campaigns
